

Recognized globally as a renowned specialist in the field of microscopic endodontics, Dr. Siju Jacob was among the pioneers of micro-endodontics in the sub-continent. He has more than 15 years of experience in microscopic endodontics. He has had a private practice limited to endodontics from 2001.

He is passionate about educating endodontists on advancement in micro-endodontics. He is the founder and director of "The Microscope Training Center" - an exclusive micro-endodontic training center in Bangalore, which serves as a learning hub for endodontists from all around the world to learn microscopic endodontics. (www.scopetraining.in)

He serves as an endodontic expert on several popular online educational forums. His articles, cases and lectures can be access throughout the internet. He has also contributed to two reputed endodontic textbooks.

Dr. Siju Jacob is a member of The Indian Endodontic Society, The British Endodontic Society and The American Association of Endodontists.

SKYCLINIC
DENTAL CENTER

SPECIALIST IN MICROSCOPIC ROOT CANAL TREATMENT

Dr. Siju Jacob
BDS, MDS

MEMBER OF:

Microscopic Endodontics

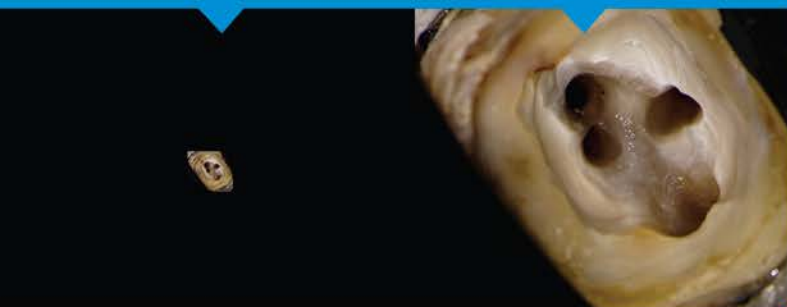

Only at Sky Clinic Dental Center

Most root canals are extremely tiny and can easily go undetected without a microscope.

If you need a Root Canal Treatment, opt for the smart choice MICROSCOPIC ENDODONTICS

Tooth under normal view

Tooth under microscopic view

ADVANTAGE OF MICROSCOPIC ENDODONTICS:

- › Minimally invasive. The amount of healthy tooth structure that has to be removed is reduced to a minimum.
- › Allows clinician to see and treat root canal anatomy that is not visible to the naked eye.
- › Increased precision and predictability of procedure.
- › Photographs of each step of the root canal treatment can be taken and e-mailed to the patient.

In the future, every specialist will perform root canal treatment procedures using the surgical microscope.....

....we do that today!!!

We believe in providing our patients with the very best in all aspects of dentistry. As a patient, when you undergo a root canal treatment (endodontics) at Sky Clinic, you will experience the difference. The corner stone of our endodontic practice is the surgical microscope; a tool that sets the standard of excellence. Root canal treatment procedures done by our specialist dentist Dr. Siju Jacob, are performed entirely under operating microscope, which allows complete visualization of the main and accessory root canal system. Our vision of successful treatment outcome is based on our use of cutting edge technology, knowledge and skill; the unique combination that results in very high long term success.

Testimonials

"It was a pleasure to meet you in Bangalore and spend some time in your company. I had a chance to review the cases on your website and can honestly say your work is world class. The complexity of the anatomy you have negotiated and filled beautifully make you stand out as a very special endodontist. You should be proud of your achievements elevating the standard of endodontic care. The world stage awaits you. You deserve it! My very best wishes, dear friend."

Dr Julian Webber BDS MS

121 Harley Street, London W1G 6AX. England

"Thanks a lot for sharing your wonderful collection of beautiful cases. I am very impressed with your work; even in the most complex situations you can demonstrate impressive results. In addition you also fulfil a high responsibility in teaching dentists, which will considerably raise the overall level of Endodontics performed in general practice. Congratulations! My best wishes for your successful practice."

Helmut Walsch

Diplomate, American Board of Endodontics
Munich, Germany

"Beautiful Cases! Your work is impressive and demonstrates considerable skill, dedication and determination! I truly enjoyed reviewing such a nice cross-section of work. Congratulations, My friend."

Clifford J. Ruddle, DDS

Santa Barbara, CA 93103 USA

I have known Dr. Siju Jacob for more than 10 years. He is not only a great clinician but an awesome lecturer and teacher. Congratulations for everything you have achieved!
